- HTML | CSS | Tailwind | JavaScript | TypeScript | C++ | C | SQL | Node | React | jQuery | Git | Python | Django | Flask | OpenCV | Pandas
- Frontend | Backend | Full-Stack | Portuguese, English, Spanish, Italian – *All professional proficiency or above*

Experience

Systems Development Analyst IBM *Hortolândia, Brazil* **05/2023 - Current**

- I provide project support by managing documentation and facilitating team communications. I am responsible for **contract management** and **process automation**. I also support contract management, including asset management, preparing for audits, supporting financial processes, resolving issues, preparing performance reports, executing the project plan, and requesting services when necessary.

Web Developer Trivela Publicidade *Campinas, Brazil* **06/2022 - 05/2023**

- During my time at Trivela Publicidade, I took on the role of **website developer**, also working with tools such as Photoshop and Illustrator. It was a valuable experience, where I was able to apply my technical skills to create creative and impactful web solutions. Collaborating on marketing and design projects has given me a broad view of the creative process and enhanced my ability to develop visually compelling digital experiences.

Education

Higher Technology Course (HTC) UNINTER International University Center *Campinas, Brazil* **12/2023 - 06/2026**

- In my degree in **Systems Analysis and Development**, I will be immersed in disciplines ranging from programming and web development to systems analysis, database, and software architecture. Uninter provides a solid theoretical foundation combined with practical opportunities, enabling me to design efficient and innovative solutions for the demands of our society.

Computer Technician St. Joseph Salesian School *Campinas, Brazil* **01/2020 - 12/2021**

- In my Computer Technician course at St. Joseph Salesian School, I obtained a solid formation in essential technical knowledge. Through this program, I acquired skills in software development, technical support, computer networks and database. The experience on the course broadened my understanding of the world of technology and prepared me to tackle complex challenges in this ever-evolving field.

Projects

- **MINICONS:** Minicons is a repository dedicated to providing a collection of SVG logos curated and enhanced for various uses, particularly for integration in personal projects. **(03/2024 - Current)**
- **ENVIRO:** Developed with the purpose of being an alternative for calculating forest damage, this project was recognized and awarded at several national and international science and technology fairs. **(09/2021)**

Others

- **3rd Place in Exact and Earth Sciences:** Award received for the development of the **ENVIRO** project. Granted by 3M Institute Technology Science Exhibition **(11/2021)**
- **3rd Place in Agricultural Sciences:** Award received for the development of the **ENVIRO** project. Granted by Science and Technology Fair of Nations - Dante Alighieri College **(09/2021)**
- **Publication of a scientific article in the InCiência magazine:** Award received for the development of the **ENVIRO** project. Granted by Science and Technology Fair of Nations - Dante Alighieri College **(09/2021)**
